Discutamos México en Europa

2010 is a year of Mexican celebrations: Bicentennial of Mexico's Independence, Centennial of its Revolution, 50th Anniversary of diplomatic relations between Mexico and the European Union and the 10th Anniversary of the Mexico-EU Global Agreement. Also, the Center for Mexican Studies of the University of Antwerp celebrates its 20th Anniversary.

On this occasion, the Mexican Mission to the EU, in collaboration with the University of Antwerp and the European Commission, will bring together experts, specialists, researchers, academics, university representatives and government officials, in order to exchange ideas on cooperation between Mexico and Europe in the areas of Education, Science and Technology and Culture.

Antwerp, Belgium

20, 21 and 22 September 2010
