PAYS DE LA LOIRE

The Pays de la Loire Region is supporting the organisation of the annual EAIE conference in its area, a major event for higher education, to reinforce the international reputation of the Loire region institutions and strengthen their activity.

Encouraging access and success to higher education to all young people, accompanying the development of institutions, diversifying the training offer and its openness internationally, and giving all the young people of the Loire region apprenticeship places are the axes on which the Pays de la Loire Region is involved.
